

DEAR FRIENDS,

On behalf of the staff and fellow Board Members of the Wissahickon Valley Watershed Association, it is my pleasure to report on the 2010 WVWA accomplishments and challenges.

Once again, WVWA's successes and achievements were made possible with the support of the individuals, foundations, companies and others listed in this annual report, along with the dedicated WVWA staff and many loyal and talented volunteers.

For yet another year the global economic uncertainties created a more challenging fund raising environment. I am very pleased to report that WVWA achieved its financial goals and was able to continue its focus on the mission of protecting the quality and the beauty of the Wissahickon Creek and enhancing life in the Wissahickon Watershed.

The 2010 overview is included here and a wonderful pictorial tour of the year's WVWA highlights is available in the Photos section of the website: <http://www.wvwa.org>. Great gratitude for these photos and website goes to Board Vice-Chair Jamie Stewart.

STEWARDSHIP

In 2010 WVWA initiated a four-part program, *Wissahickon From the Top*, with the goal of restoring the actual Wissahickon Creek. With this significant project WVWA is now able to focus on the Wissahickon Creek itself after decades of protecting the land surrounding the Creek. The program includes plans to repair damage caused by erosion and flooding, remove structures in the Creek that promote erosion and provide ways to capture storm runoff as ground water. This major enhancement project is made possible through an EPA enforcement action.

Also this year WVWA retrofitted a stormwater basin located north of North Wales Road in Upper Gwynedd. Working downstream, the project continues on the south side of North Wales Road.

WVWA's *Wissahickon From the Top* is the first step in a restoration project that will continue for decades to come. By starting upstream, the entire Wissahickon Creek will reap the benefits of reduced stormwater damage and a decrease of the sediment in the Creek.

In 2010 WVWA made great strides in the maintenance of, and increased and enhanced signage for the Green Ribbon Trail (GRT). New mile markers and directional signs increased the user friendliness of the GRT.

WVWA increased its efforts to eradicate invasive Japanese Knotweed along the banks of the Creek; many thanks to WVWA's partners in this endeavor who include REI, Germantown Academy, the US Navy, as well as Eagle Scouts and many volunteers.

These invasive plants were exported from other continents for their beauty, allure and utility. Japanese Knotweed (*Polygonum cuspidatum*) and Giant Knotweed (*Polygonum sachalinense*) were imported from Asia for their decorative qualities and ability to stabilize streambanks, as they grow quickly and provide ground cover. They have since spread far beyond the places where they were introduced, creating a significant invasive epidemic.

WVWA received a grant from REI in 2010 to remove knotweed from the stream reach from Morris Road to Lafayette Road, which includes the Germantown Academy campus. WVWA partnered with a GA student who was also an Eagle Scout candidate along with the above-listed partners and a US Navy group to complete this project phase and in 2011 WVWA will continue downstream, using the REI funding to do so. Since this is a much larger work area, WVWA will have two Eagle Scout candidates working on this project along with other community volunteers.

WVWA recognizes the partnership with the Rotary Club of Ambler and Wordsworth Academy and thanks them for another wonderful year of teamwork, tree planting and fellowship.

For the 40th annual Creek Clean Up, WVWA joined forces with The Friends of the Wissahickon (FOW) to clean the Wissahickon Creek from top to bottom. Volunteers of all ages cleaned the entire Wissahickon Creek, its many tributaries and the surrounding trails. Volunteers were assigned to sections of the Creek to collect trash. Items removed from the Creek included plastic bottles and bags, swing sets, cans, mattresses and tires.

Following the clean up, all volunteers enjoyed WVWA's picnic in Fort Washington State Park, with food provided by Whole Foods Market of North Wales.

In addition, two successful Serve the Preserve events occurred in the spring and fall, as well as many other important stewardship projects. The spring Serve the Preserve involved invasive species removal and tree planting at Camp Woods. In the fall, WVWA hosted or organized very special event to begin improving the health of the Creek. As part of the *Wissahickon From the Top* project WVWA reshaped a stormwater basin in the Upper Wissahickon in an effort to collect and retain more stormwater. This is extremely important for the health of the entire Creek. The upper section of the Creek suffers from low flow during the warmer months, which endangers the aquatic and plant life that depend on a certain amount of water. Changes in the Upper Wissahickon greatly affect the entire Creek. Retaining more stormwater allows groundwater that feeds the Wissahickon Creek to replenish the Creek and it helps to keep the Creek healthy year round.

MERCK MAKES A SPLASH

2010 marked the outstanding 50-year long partnership with Merck as a WVWA sponsor. In October 2010 an event, *Merck Makes A Splash* combined a stewardship beautification event with Merck volunteers enhancing the trailhead along with a celebration of this half-century milestone of generous support.

EVANS-MUMBOWER MILL

2010 brought the Mill even closer to the goal of its restoration as a working gristmill. Once again, great thanks go to the committed Mill volunteers who make all the enhancements and public programs possible, along with the continued generosity and support of the Betz family.

A new and very successful Mill event occurred in October 2010 - *The Ghost of Henry Mumbower*. This is slightly spooky but enjoyable evening as WVWA showcases Henry Mumbower and his family.

OUTREACH PROGRAMS

2010 saw more unique outreach events and enhanced the Preserve Walks. These walks, which highlight WVWA Preserves, were expanded and proved to be well attended, popular and an ideal way to explore WVWA's preserved spaces.

WVWA signature events including the Creek Clean-up in April; Birdathon in May; TexMex 5K Race for Open Space in June and the Fall Walk for the Wissahickon all had record numbers of participants. WVWA expresses great appreciation to the many sponsors, volunteers and participants, along with the WVWA staff, who made these events possible and so well attended and enjoyable.

In particular, the 21st Annual Tex Mex 5K Race for Open Space was a wonderful triumph for everyone involved. The Tex Mex Connection Bar & Restaurant in North Wales once again hosted this amazing race that sold out a month ahead. This year's field of 1500 runners, 100 walkers along with hundreds of volunteers, neighbors and WVWA supporters braved the heat and humidity, drank 50 gallons of margaritas, ate thousands of tacos and chips and enjoyed the Party-Under-the-Stars at Tex Mex Connection.

EDUCATION PILOT APPROVED

In 2010 WVWA's Board of Directors approved a Children's Education Program that will educate nearly 1,500 area students in 2011.

WVWA's efforts will teach Wissahickon School District students various topics including wetlands and watersheds, the historic importance of Pennsylvania mills, and the science associated with water quality. Third grade students will study wetlands and watersheds while experiencing hands-on activities in nearby wetlands. Pennsylvania history- ideas and inventions- will allow fourth graders to explore the importance of local mills while practicing mill activities first-hand at the Evans-Mumbower Mill. Finally, ninth grade students will discover the science behind water quality monitoring by testing stream turbidity, velocity, and stream mapping.

WVWA announced that volunteer Suzanne Smith-Oscilowski is the new WVWA Educator. She will work part time and stated "The newly re-established Wissahickon Valley Watershed's Children's Education Program promises to provide local children with the opportunity to learn about the importance of the Wissahickon Creek and its Watershed. I am thrilled to be involved with the program and I look forward to helping children develop knowledge about and concern for the watershed in which they live."

WVWA looks forward to 2011 and beyond to further the goal of promoting awareness and appreciation of environmental issues through education so that the community can make sound choices for a sustainable, ecologically healthy future.

WVWA WINS 2010 GREEN FUTURES ACHIEVEMENT AWARD

WVWA celebrated this award in recognition for its efforts to complete the Upper Wissahickon Green Ribbon Trail. Montgomery County Green Futures, a project of the Montgomery County Land Trust, recognized WVWA's outstanding achievements and efforts demonstrating exemplary land protection and visionary open space projects.

The award noted that work completing the upper portion of the Green Ribbon Trail (GRT) involved four components: physical improvements to the Trail; enhanced public access to the Trail; interpretation of natural history and heritage along the Trail; and supportive events, cooperative activities and sponsorships along the Trail. The award also commended the addition of the Ambler Rotary Bridge, the four new stepping stone crossings and the planned fifth crossing.

TRAILBLAZER CELEBRATION 2010

WVWA hosted a festive celebration on September 25 at Tunnel Farm, the home of Phoebe Driscoll, to honor nine special individuals:

Francis Ballard
Thomas Dolan, IV
Phoebe Driscoll
Hugh Moulton
Ruth Patrick
Winston Sheppard
James M. Stewart, Sr.
Thomas Timoney
Henry C. Webster, Sr.

The 2010 WVWA Trailblazer Celebration honored the vision and commitment of these nine individuals who built and blazed the trail for WVWA's many successes. Over 300 people attended this gala evening filled with special remembrances, memories, music and camaraderie.

WATER QUALITY MONITORING

Water samples were collected and the data recorded and analyzed for the eighth year. WVWA Water Quality Manager, Dennis Pennington continues to research problem spots in the Wissahickon and to determine whether any mitigating actions should be taken.

WVWA is a leader active in communicating the perils of non-point sources, and how each person individually and collectively can take action to reduce these pollutants.

Through the generosity of donors, WVWA purchased new testing equipment, added new lab services and is enhancing the program.

THOMAS J. TIMONEY

WVWA lost its longest serving Board member, Trailblazer and loyal friend Tom Timoney on December 30, 2010. A lawyer who had long been active in land preservation, Tom was involved in WVWA governance, legal issues, the Evans-Mumbower Mill and many projects throughout the Watershed.

THANK YOU

All the WVWA team is most grateful for your generous support in 2010. Please join WVWA for an event, walk or on a visit to the historic Four Mills Barn headquarters or the Evans-Mumbower Mill in 2011.

Sincerely,

Mary S. Claghorn
Chair, Board of Directors
